

A New Day is Dawning for the NBRSA

My name is Gene Bukys, President of the NBRSA, and I want to inform our members of significant changes that we have made to our organization.

As you may have heard, we have split the functions that our previous Business Manager had. We feel that by splitting these functions we will achieve better focus on both the management and creative sides of our organization. This splitting of the functions should provide better service and support to all of our members.

If I can help anyone please ask. I am committed to making this as smooth a transition as possible. We are still waiting on the transfer of some of our assets and equipment from our current Business Manager, so it may take us a few weeks to get up to speed on everything. Your patience is appreciated. Thanks for your support and understanding.
