

PROCEDURE FOR OFFICIAL RECOGNITION OF A WORLD RECORD
As of July, 2000 Board Meeting

1. **All backers and targets** must be signed by **Two MATCH OFFICIALS (including REFEREES AND THE RANGE OFFICER)**.
2. **Backers, targets, and a copy of the registration card** must be sent to the **Regional Director** by the Host Club. The targets must not leave the Club grounds except in the possession of a Match Official, someone who did not shoot the record.
3. The Regional Director measures the targets, checks the backers, and if the measurement is close (within .009), sends the targets, backers, registration card, and a **NBRSA World Record Submission Form** properly filled out, to the Chairman of the Measurement Committee. If the measurement is NOT close, the Director will return the targets, backers and registration card.
4. The Chairman checks the targets, counts the holes in the backer, makes sure all targets and backers are signed by two Match Officials, checks the information on the card. And if everything is O.K., covers up the range scores, measures the targets, records the scores, assigns a number to each target, and then sends the target or targets, with the proper forms, to the first Member of the Measuring Committee. If there is a problem with a backer or backers, he sends them with the targets.
5. The targets will be measured by three of the four Members of the Committee. A member residing in the same Region as the person who shot the targets should NOT measure the targets.
6. The Committee Member measures the targets, records the scores in his own records, and on the form, checks any backer or other problem, sends the form back to the Chairman, and sends the targets to the next Committee Member. When the last Committee Member has measured the targets, he sends the targets and form back to the Chairman.
7. The Chairman then records the scores of the Committee Members, takes the average of the scores (except the range measurements), and that score is the official measurement.
8. The Chairman records all of the information in his records, determines if it is a World Record. If it is a World Record, he sends the proper forms to the President, to the Business Manager, and to the Editor of our magazine. He then returns the targets, with the measuring information to the Competitor. If it is NOT a World Record, he returns the targets and the measuring information to the Competitor.
9. The Business Manager sends the Competitor a World Record Certificate, and the Editor puts the record and all the information in the magazine.

Gene Bukys,
Chairman, NBRSA Measuring Committee

PROCEDURE FOR OFFICIAL RECOGNITION
OF A LONG-RANGE WORLD RECORD
As of 2006 Board Meeting

1. **All targets must be signed by Two MATCH OFFICIALS (including REFEREES AND THE RANGE OFFICER).**
2. **Targets, a copy of the registration form, and the NBRSA World Record Submission Form (properly filled out)** must be sent to the **Regional Director** by the Host Club. The targets must NOT leave the Club grounds except in the possession of a Match Official, someone who did NOT shoot the record.
3. The Regional Director checks the targets for signatures, checks the information on the Competitor's Registration Form, and makes sure the **NBRSA World Record Submission Form** is properly filled out. **Then the Director sends the targets, the Competitor's Registration Form, and the NBRSA World Record Submission Form** to the Chairman of the Long-Range Measuring Committee
4. The Long-Range Measuring covers up the range scores on the targets, measures the targets, records the scores, assigns a number to each target, and then sends the target or targets, with the proper forms, to the first Member of the Long-Range Measuring Committee.
5. The Measuring Committee Member measures the targets, records the scores in his own records and on the form, sends the form back to the Long-Range Measuring Committee Chairman, and sends the targets to the next Committee Member. When the last Committee Member has measured the targets, he sends the targets and form back to the Long-Range Measuring Chairman.
6. The Chairman of the Long-Range Measuring Committee then records the scores of the Long-Range Measuring Committee Members, takes the average of the scores (except the range measurements), and that score is the official measurement.
7. The Chairman of the Long-Range Measuring Committee records all of the information in his records and determines if it is a World Record. He then returns the target to the competitor. If it is a World Record, the Long-Range Measuring Chairman will then send the NBRSA World Record Submission Form and the Registration Form to the Long-Range Benchrest Chairman.
8. The World Records Chairman then sends the proper forms to the President, to the Business Manager, and to the Editor of our magazine notifying them of the new NBRSA World Record.
9. The Business Manager sends the competitor a World Record Certificate, and the Editor puts the record and all the information in the magazine.
